Consulting

New Nitrogen Concepts

Ein Konzept der NNC-MED Consulting

NNC-MED Consulting,

process cooling will have a future

another innovation of NNC-MED Consulting,

The NNC-MED Consulting as a contractor of EDAG GmbH & Co. Kg a. A., made the concept of the new cooling systems for the HFZ in Leipzig. The following steps are the final way.

- Concept offer LN₂-Based, for the Primary / Secondary cooling of all Processes, inclusive the main room cooling's (-40°C/+4°C)
end, may - 2011
- realization planning inclusive the prototyping for validation end testing
end, august -2011
- real planning / ordering
running

before starting realization of all steps there whose a lot of development necessary. The NNC-MED Consulting made the job.

More project information's are not aloud at the moment.
